Free from in focus

There are lots of delicious options in our free from and vegan range. To be able to offer a great variety of tasty foods, means trying what you buy – which is exactly what we do!

Our kitchen at Harvest has played host to all sorts of free from and vegan foods. Our tasters range from passing drivers, chefs and our CEO. The kitchen is always popular on tasting days. It's a chance to discover new and exciting products and whilst some products end up rejected, others move mouth-wateringly forward into our range.

At a recent vegan tasting session one of the undisputed highlights was the Moving Mountains burger! It tastes remarkably like a real burger, using natural plant-based ingredients and loaded with herbs and spices for an authentic flavour and aroma. It sizzles in the pan, contains beetroot juice which allows a juicy 'bleed' at the centre of the patty and tastes fantastic! A big tick for Moving Mountains, and just one of the many delicious discoveries in our free from and vegan range.

Our mission is to always bring you the best foods at great value and we'll continue tasting and exploring to ensure Harvest is always your essential ingredient.
