

# Kitchen Cleaner Sanitiser

Country Range Kitchen Cleaner Sanitiser is an independently proven sanitiser that kills 99.99% germs and is tested against many common pathogenic bacteria including E. coli, Listeria, Salmonella and MRSA. Tested to BS EN 1276 and BS EN 13697.

- Tested to BS EN 14476 and BS EN 13697
- Kills 99.99% of germs
- 750ml

#### Quality Assurance:

This product is manufactured in the UK by The Country Range Group Ltd.

Produced under ISO 9001 Quality Management System & ISO 14001 Environmental Management System. This ensures our products and services are of the highest possible standard.

This product has not been tested on animals.

#### Contains:

Alkyl (C12-16) Dimethylbenzyl Ammonium Chloride (ADBAC/BKC (C12-16) - 0.125g/100g

#### Biodegradability:

All surfactants used in Country Range products comply with the current European regulations concerning biodegradability & protection of the environment.

#### ORDER CODE(S): CRG713 - 750ml - 800-217-0001

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

| SECTION 4: First aid measures   |   |  |
|---|---|--|
| 4.1. Description of first aid measures  |   |  |
| Inhalation  | Move affected person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues.  |  |
| Ingestion   | Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention if any discomfort continues.  |  |
| Skin contact  | Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention if irritation persists after washing.   |  |
| Eye contact   | Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing. Show this Safety Data Sheet to the medical personnel. |  |
| 4.2. Most important symp  | toms and effects, both acute and delayed  |  |
| Inhalation  | Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature.  |  |
| Ingestion   | Unlikely exposure route without abuse. Symptoms will include, Sickness, possible Irritation of GI Tract. A soapy taste may be reported.   |  |
| Skin contact  | Prolonged contact may cause redness, irritation and dry skin.   |  |
| Eye contact   | May cause temporary eye irritation.   |  |
| 4.3. Indication of any immediate medical attention and special treatment needed |   |  |
| Notes for the doctor  | No specific recommendations.  |  |
| SECTION 5: Firefighting measures  |   |  |

#### 5.1. Extinguishing media

| <u>galoling</u>   |   |  |
|---|---|--|
| Suitable extinguishing media                                      | The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Foam, carbon dioxide or dry powder.   |  |
| 5.2. Special hazards arising from the substance or mixture        |   |  |
| Hazardous combustion<br>products                                  | Thermal decomposition or combustion products may include the following substances: Oxides of carbon. Toxic gases or vapours.  |  |
| 5.3. Advice for firefighters                                      |   |  |
| Protective actions during firefighting                            | Control run-off water by containing and keeping it out of sewers and watercourses.  |  |
| Special protective equipment for firefighters                     | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   |  |
| SECTION 6: Accidental release                                     | e measures  |  |
| 6.1. Personal precautions, pro                                    | tective equipment and emergency procedures  |  |
| Personal precautions  | For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.  |  |
| 6.2. Environmental precaution                                     | <u>s</u>  |  |
| Environmental precautions   | Collect and dispose of spillage as indicated in Section 13. Do not discharge into drains or watercourses or onto the ground.  |  |
| 6.3. Methods and material for                                     | containment and cleaning up   |  |
| Methods for cleaning up   | Stop leak if safe to do so. Absorb in vermiculite, dry sand or earth and place into containers.<br>Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains,<br>sewers or watercourses.               |  |
| 6.4. Reference to other section                                   | าร  |  |
| Reference to other sections                                       | —<br>For personal protection, see Section 8. See Section 11 for additional information on health<br>hazards. For waste disposal, see Section 13.  |  |
| SECTION 7: Handling and sto                                       | rage  |  |
| 7.1. Precautions for safe hand                                    | ling  |  |
| Usage precautions   | Provide adequate ventilation. Avoid contact with skin and eyes. Do not mix with other chemicals or detergents. Do not mix with Bleach.  |  |
| Advice on general occupational hygiene                            | No specific hygiene procedures recommended but good personal hygiene practices should<br>always be observed when working with chemical products. Wash at the end of each work shift<br>and before eating, smoking and using the toilet. |  |
| 7.2. Conditions for safe storage, including any incompatibilities |   |  |
| Storage precautions   | Store in tightly-closed, original container in a dry, cool and well-ventilated place.   |  |
| 7.3. Specific end use(s)  |   |  |
| Specific end use(s)   | The identified uses for this product are detailed in Section 1.2.   |  |
| SECTION 8: Exposure control                                       | s/Personal protection   |  |
| 8.1. Control parameters   |   |  |
|   |   |  |

#### ALKYL (C12-16) DIMETHYLBENZYL AMMONIUM CHLORIDE (ADBAC/BKC (C12-16)) (CAS: 68424-85-1)

| controls                                    |   |
|---|---|
| Environmental exposure                      | Avoid releasing into the environment.   |
| Respiratory protection                      | Respiratory protection not required.  |
| Hygiene measures                            | Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Use appropriate skin cream to prevent drying of skin.   |
| Other skin and body protection              | Wear appropriate clothing to prevent repeated or prolonged skin contact. Use appropriate skin cream to prevent drying of skin.  |
| Hand protection                             | In normal use gloves are not required. During manufacture and filling operations, the use of gloves with a breakthrough time of >60minutes is recommended. For users with sensitive skin, it is recommended that suitable protective gloves are worn. To protect hands from chemicals, gloves should comply with European Standard EN374. Gloves made from the following material may provide suitable chemical protection: Neoprene, nitrile, polyethylene or PVC. |
| Eye/face protection                         | During the manufacture and filling of this product eye protection is recommended refer to EN166. No specific eye protection required during normal use.   |
| Personal protection                         | This is not a COSHH/risk assessment, but should be used to assist in the development of a COSHH/risk assessment. Although unclassified, the use of gloves and eye protection should be considered when mitigating risks.  |
| Appropriate engineering<br>controls         | Provide adequate ventilation.   |
| 8.2. Exposure controls Protective equipment |   |

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

| Appearance | Liquid.     |
|------------|-------------|
| Colour     | Colourless. |
| Odour      | Odourless.  |
| рН         | ~9.5 - 10.5 |

| Melting point                                | Not determined.   |
|--|---|
| Initial boiling point and range              | Not applicable.   |
| Flash point                                  | Not determined.   |
| Evaporation rate                             | Not determined.   |
| Flammability (solid, gas)                    | Not applicable.   |
| Upper/lower flammability or explosive limits | No information available.   |
| Vapour pressure                              | Not determined.   |
| Vapour density                               | Not determined.   |
| Relative density                             | 1.000 typically @ 20°C  |
| Bulk density                                 | Not applicable.   |
| Solubility(ies)                              | Soluble in water.   |
| Partition coefficient                        | No information available.   |
| Auto-ignition temperature                    | Not determined.   |
| Decomposition Temperature                    | Not determined.   |
| Viscosity                                    | Not determined.   |
| Explosive properties                         | There are no chemical groups present in the product that are associated with explosive properties.                              |
| Explosive under the influence of a flame     | Not considered to be explosive.   |
| Oxidising properties                         | The mixture itself has not been tested but none of the ingredient substances meet the criteria for classification as oxidising. |
| Comments                                     | Information given is applicable to the product as supplied.   |
| 9.2. Other information                       |   |
| Other information                            | Not relevant.   |
| SECTION 10: Stability and rea                | activity  |
| 10.1. Reactivity                             |   |
| Reactivity                                   | Under normal storage conditions this product is stable.   |
| 10.2. Chemical stability                     |   |
| Stability                                    | Stable at normal ambient temperatures.  |
| 10.3. Possibility of hazardous               | reactions   |
| Possibility of hazardous reactions           | Mixing with bleach could cause dangerous heating of the solution.   |
| 10.4. Conditions to avoid                    |   |
| Conditions to avoid                          | Avoid exposure to high temperatures or direct sunlight.   |
| 10.5. Incompatible materials                 |   |
| Materials to avoid                           | No specific material or group of materials is likely to react with the product to produce a hazardous situation.                |

#### 10.6. Hazardous decomposition products

 Hazardous decomposition
 Does not decompose when used and stored as recommended.

| SECTION 11: Toxicological information                               |   |  |
|---|---|--|
| 11.1. Information on toxicological effects                          |   |  |
| Toxicological effects   | Information given is based on data of the components and of similar products.   |  |
| Acute toxicity - oral<br>Notes (oral LD₅o)                          | Based on available data the classification criteria are not met.  |  |
| Acute toxicity - dermal<br>Notes (dermal LD₅o)                      | Based on available data the classification criteria are not met.  |  |
| Acute toxicity - inhalation<br>Notes (inhalation LC <sub>50</sub> ) | Based on available data the classification criteria are not met.  |  |
| Skin corrosion/irritation<br>Skin corrosion/irritation              | Not classified. Based on available data the classification criteria are not met.  |  |
| Serious eye damage/irritation<br>Serious eye damage/irritation      | Based on available data the classification criteria are not met.  |  |
| Respiratory sensitisation<br>Respiratory sensitisation              | Not sensitising. Based on available data the classification criteria are not met.   |  |
| Skin sensitisation<br>Skin sensitisation                            | Not classified. Based on available data the classification criteria are not met.  |  |
| Germ cell mutagenicity<br>Genotoxicity - in vitro                   | Does not contain any substances known to be mutagenic.  |  |
| Carcinogenicity<br>Carcinogenicity                                  | Does not contain any substances known to be carcinogenic.   |  |
| Reproductive toxicity<br>Reproductive toxicity - fertility          | Does not contain any substances known to be toxic to reproduction.  |  |
| Specific target organ toxicity -                                    | single exposure   |  |
| STOT - single exposure  | Not classified as a specific target organ toxicant after a single exposure.   |  |
| Specific target organ toxicity -                                    |   |  |
| STOT - repeated exposure  | Not classified as a specific target organ toxicant after repeated exposure.   |  |
| Aspiration hazard<br>Aspiration hazard                              | Based on available data the classification criteria are not met.  |  |
| General information   | This product has low toxicity.  |  |
| Inhalation  | This is unlikely to occur but symptoms similar to those of ingestion may develop.   |  |
| Ingestion   | May cause irritation. Symptoms following overexposure may include the following: Stomach pain. Nausea, vomiting. Diarrhoea. |  |
| Skin contact  | Skin irritation should not occur when used as recommended. Repeated exposure may cause skin dryness or cracking.            |  |
| Eye contact   | May cause temporary eye irritation.   |  |

| SECTION 12: Ecological information  |  |  |
|---|--|--|
| Ecotoxicity   | There are no data on the ecotoxicity of this product. Not regarded as dangerous for the environment.   |  |
| 12.1. Toxicity  |  |  |
| Toxicity  | Not considered toxic to fish.  |  |
| 12.2. Persistence and degradability   |  |  |
| Persistence and degradability   | The surfactant(s) contained in this product complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them at their direct request, or at the request of a detergent manufacturer.   |  |
| 12.3. Bioaccumulative potentia  |  |  |
| Bioaccumulative potential   | No data available on bioaccumulation.  |  |
| Partition coefficient   | No information available.  |  |
| 12.4. Mobility in soil  |  |  |
| Mobility  | The product is water-soluble and may spread in water systems.  |  |
| 12.5. Results of PBT and vPvB assessment  |  |  |
| Results of PBT and vPvB<br>assessment   | This product does not contain any substances classified as PBT or vPvB.  |  |
| 12.6. Other adverse effects   |  |  |
| Other education official  |  |  |
| Other adverse effects   | None known.  |  |
| Other adverse effects SECTION 13: Disposal consid   |  |  |
